

Table of Contents

Chapter 1:	Shigaraki's Ancient Kilns.....	1
A.	The Advent of the Kiln.....	1
B.	Shigaraki's Ancient Kilns.....	6
Chapter 2:	Anagama Kilns I Have Built.....	11
A.	Description of Anagama Kilns.....	11
B.	Pros and Cons of Anagama Kilns.....	11
i.	The Firebox and Firing Chamber.....	11
ii.	Firing Rhythm.....	12
iii.	Stoking Techniques.....	12
iv.	Visually Monitoring the Firing Progress.....	13
v.	Temperature Control.....	14
vi.	Duration of Firings.....	14
vii.	Economic Comparison.....	15
viii.	What is the Kiln's Purpose?.....	15
C.	Why Choose Anagama Kilns?.....	15
D.	Anagama Kilns I Have Built.....	17
i.	The First Anagama I Built.....	17
ii.	Improvements to My First Anagama.....	20
iii.	The Third Kiln.....	22
iv.	The Fourth Kiln and Those After.....	23
v.	My Current Anagama Kilns.....	25
Chapter 3:	Anagama Design.....	27
A.	Anagama Construction.....	27
i.	Top View.....	27
ii.	Side View.....	28
iii.	Cross-section.....	29
iv.	Kiln Structure.....	29
v.	Ash Pit.....	30
B.	Size of Anagama Kilns.....	31
i.	Width, Height, Depth.....	31
ii.	Wall Thickness.....	33
C.	Orientation of Anagama Kilns.....	35
i.	South Slope and Wind.....	35
ii.	Sunny and Dry.....	36
iii.	River and Humidity.....	36
iv.	Conditions of the Kiln Site.....	38
D.	Chimney.....	38
i.	Circumference and Height.....	38
ii.	Purpose of the Chimney.....	41
iii.	<i>Sutema</i> (Fire Playing Space).....	42

Chapter 4:	Building the Kiln.....	47
A.	Materials.....	47
B.	Slope.....	52
C.	Foundation.....	55
D.	Laying Bricks.....	59
	i. Laying the First Row.....	59
	ii. Filling with Sand.....	59
	iii. Preparing Kiln-clay.....	60
	iv. Laying the Second Row.....	61
	v. Shape of the Kiln-clay Space.....	61
	vi. How to Lay Bricks.....	62
	vii. Laying the Third Row.....	62
	viii. How to Lay Bricks In Order to Make The Arch.....	63
E.	Arch Frame.....	64
	i. Attaching Split Bamboo Along the Inside of the Foundation.....	66
	ii. Building Arches Using Bamboo.....	68
	iii. Installing the Ridgepole.....	70
	iv. Standing the Posts.....	71
	v. Stabilizing the Posts and Ridgepole with Crossbraces.....	71
	vi. Attaching Girders Parallel to the Ridgepole.....	72
	vii. Adjusting the Arch Shape.....	73
	viii. Attaching Ceiling Stringers.....	74
	ix. Using Bound Bamboo for the [Arch] Basket.....	76
	x. Constructing the Entrance/Exit Arch.....	77
F.	Raising the Arch Ceiling.....	78
	i. Clean the Foundation Bricks.....	79
	ii. Stack Bricks in a Row.....	79
	iii. Laying the Entrance Arch Bricks.....	80
	iv. Laying the Ceiling of the Main Body of the Kiln.....	81
	v. Shaping Bricks.....	84
	vi. Stabilizing Bricks with Kiln-clay.....	84
	vii. Plastering the Finishing Coat.....	86
	viii. How Long to Take in Building the Ceiling.....	86
G.	The <i>Sutema</i>	87
H.	Chimney.....	88
I.	Finishing the Kiln Interior.....	90
J.	Trends in Pottery and Kilns.....	93

Chapter 5:	Loading the Kiln.....	95
A.	Flame Movement Inside the Kiln.....	95
B.	Temperature Distribution.....	96
C.	Interior Shelving.....	97
	i. Kiln Shelves.....	98
	ii. Kiln Shelves and Posts.....	98
	iii. Constructing the Floor.....	99
	iv. Stabilizing Kiln Shelves.....	100
	v. <i>Hitotsu Narabe</i>	100
D.	Actual Loading.....	101
	i. Principles of Loading.....	101
	ii. Arrangement of Pottery.....	102
	iii. Sequence of Loading.....	104
E.	Loading Strategies.....	104
	i. <i>Hi Iro</i> Shadows.....	105
	ii. <i>Koge</i>	106
	iii. Upside-Down Firing.....	106
	iv. Shell Marks.....	108
	v. Other loading Plans.....	108
F.	Loading an Iga Kiln.....	109
Chapter 6:	Firing the Kiln.....	113
A.	Regarding Fuel.....	113
	i. Characteristics of Pine Firewood.....	114
	ii. Reasons to Use Pine Firewood.....	117
	iii. Firing Conditions and Fuel.....	118
B.	Necessary Quantity of Fuel and Its Preparation.....	118
	i. Standardizing Firewood.....	119
	ii. Drying Firewood.....	119
	iii. Amount of Firewood to Prepare.....	121
	iv. Other Fuels.....	123
C.	Ceremony for the Start of the Firing.....	124
D.	How to Fire the Kiln.....	124
	i. Preheating.....	126
	(a) Where to Build the Preheating Fire.....	126
	(b) Reasons to Preheat.....	127
	(c) Actual Process of Preheating.....	129
	ii. Aggressively Raising the Kiln Temperature.....	132
	(a) Temperature During the Aggressive Firing Stage.....	133
	(b) Atmosphere During Aggressive Firing.....	134
	(c) Aggressively Firing and Fuel.....	135
	(d) Actual Process of Aggressive Firing.....	135
	iii. Soaking.....	137
	iv. Cooling.....	138

	v.	Unloading.....	139
E.		How to Fire the <i>Sutema</i>	140
F.		Strategies for Conditions Which Affect Kiln Firing.....	142
	i.	Effects of Wind.....	142
	ii.	Effects of Rain.....	143
	iii.	Effects of the Seasons.....	143
	iv.	Effects of the Firemouth's Height.....	144
	v.	Effects of Loading.....	145
	vi.	Effects of Dampers.....	147
	vii.	Clay and Firing Methods.....	148
Chapter 7:		Kilns for [Various] Types of Pottery.....	151
A.		Kilns for <i>Hi Iro</i> Pottery.....	151
	i.	Kiln Shape.....	152
	ii.	Kinds of Clay.....	153
	iii.	Actual Firing.....	154
	iv.	Cautions.....	157
B.		<i>Shizenyu</i> and <i>Koge</i> Pottery Kilns.....	158
	i.	<i>Shizenyu</i> Pottery.....	158
	(a)	Kiln Structure.....	158
	(b)	Makeup of the Clay.....	158
	(c)	Loading.....	159
	(d)	Actual Firing.....	159
	(e)	<i>Yobigusuri</i> Method for Iga Pottery.....	161
	(f)	Kiln Drip.....	161
	ii.	<i>Koge</i> Pottery.....	162
	(a)	Where <i>Koge</i> Pieces Can Be Fired.....	162
	(b)	Firing Techniques.....	163
	(c)	The Relationship Between <i>Koge</i> and Ember Volume.....	164
C.		Kilns for <i>Youhen</i> Pottery.....	165
Chapter 8:		Miscellaneous Notes on Firing Pottery.....	167
A.		Building a Chimney While Firing the Kiln.....	167
B.		Typhoons and Chimneys.....	170
C.		Attaching a Tube Wind Shelter to the Chimney.....	172
D.		Fully Underground Anagama.....	173
E.		Building a Kiln for Disabled People.....	176
F.		Diagnosing Ms. M's Multifunction Kiln.....	178
G.		Kiln Ceiling Expansion.....	182
H.		Story of Collapsed Shelves.....	184
I.		<i>Haikaburi</i> , <i>Sunakaburi</i>	185
J.		Firing the Kiln in Shifts.....	187
K.		No Roof, No Money, No Firewood.....	188
L.		Story of Terror.....	190

M.	Firing in Summer.....	192
N.	Firing in Winter.....	193
O.	Thundering Kiln – Spider Web Story.....	194
P.	The Hearth Caretaker Bug Story.....	197
Q.	Big Herd of Newts at the Iga Kiln Site.....	198
R.	Story of The Man Buried in a Kiln.....	200
S.	A Summertime Incident at the Studio.....	201
T.	Drum Kiln.....	203
